

## **Bosch Releases Module for Easier Programming of Intrusion Control Panels**

February 17, 2009

*Fairport, N.Y.* – Bosch Security Systems, Inc., a full-line manufacturer of high-quality security solutions, announces the release of the DX4010V2 Serial Interface Module, which allows local programming of compatible intrusion control panels using Bosch Remote Programming Software and a PC laptop.

Featuring a USB device port, the upgraded module is now compatible with PCs that have either a 9-pin RS232 or a USB connection. Multiple connection options give customers the ability to program Bosch intrusion control panels using their existing PC hardware without the addition of a serial-to-USB converter – simplifying the installation process for technicians.

The DX4010V2 also features four diagnostic LEDs visible through the transparent enclosure for easy and convenient troubleshooting.

For more information on the DX4010V2 or other control panel accessories from Bosch, visit <http://www.boschsecurity.us>

**About the Bosch Group**

*The Bosch Group is a leading global supplier of technology and services. According to preliminary figures, some 282,000 associates generated sales of roughly 45 billion euros in the areas of automotive and industrial technology, consumer goods, and building technology in fiscal 2008. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than three billion euros for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.*

*In North America, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial automation and mobile products, power tools and accessories, security technology, thermo-technology, packaging equipment and household appliances. Bosch employs approximately 25,000 associates in more than 70 locations throughout the U.S., Canada and Mexico, with reported sales of \$9.5 billion in fiscal 2007.
