

# Protecting Barak Obama Using a Wireless Solution

**BOSCH**

## Challenge:

With continued emphasis placed on public and personal safety, governments and agencies around the world need dependable wireless solutions to gain access to critical databases and ensure the safety of civilians and property. On January 20, 2009, in Washington, D.C, while the world's eyes were on President Barack Obama's largest historic inauguration, security was preparing themselves for what took years of careful planning by the U.S. government to protect government officials and citizens on inauguration day.

## Solution:

**Bosch Security System's AutoDome** digital cameras were integrated with **Alvarion's** wireless devices and positioned around the Washington Mall using WiMax multipoint wireless broadband solution.

## Site Feedback:

The safety of top U.S. leaders and large crowds during the day's ceremonies was ensured using the integrated **Bosch's AutoDome** modular cameras and **Alvarion's** surveillance network.

## Contact Profiles:

### Camera Supplier:

**Bosch Security Systems, Inc.**, a full-line manufacturer of high-quality security solutions was chosen to supply five (5) **AutoDome** digital cameras for this wireless solution.
