

## **Bosch announces Compatibility Web Site for IP Video Surveillance Products**

May 10, 2010

**Fairport, N.Y.** – Bosch Security Systems announces an interactive web site that details the IP video devices, firmware versions and features supported by a variety of software offerings from Bosch and other suppliers. The new IP Video Compatibility Zone provides customers with the information they need to design dependable surveillance systems using best-of-breed CCTV products that integrate seamlessly.

Customers accessing the site will find the products and features – such as tamper detection, streaming capabilities and alarm notifications – that are supported by 12 head-end systems from Bosch and third-party suppliers. Customers can select multiple products and systems at once, allowing them to compare compatibility across a customized set of suppliers and devices.

“Seamless integration is just one step in Bosch’s efforts to advance the science of surveillance, which focuses on image usability,” said Dieter Jöcker, senior product manager for IP products, Bosch Security Systems. “The result of our efforts is security products that provide comprehensive integration and exceptional image quality.”

Two powerful planning tools are also provided on the new site. The Firmware Compatibility matrix identifies the firmware versions that are ideal for Bosch IP cameras, encoders, digital video recorders, and software. In addition, an Encoder-Decoder Compatibility chart outlines compatibility between camera/encoder configurations and decoders for both H.264 and MPEG-4 compression. Customers can download the Firmware and Encoder-Decoder Compatibility charts for easy offline reference.

*The Bosch Group is a leading global supplier of technology and services. In the areas of automotive and industrial technology, consumer goods, and building technology, some 275,000 associates generated sales of 38.2 billion euros in fiscal 2009. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for growth. Each year, Bosch spends more than 3.5 billion euros for research and development, and applies for some 3,800 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.*

*The company was set up in Stuttgart in 1886 by Robert Bosch (1861–1942) as “Workshop for Precision Mechanics and Electrical Engineering.” The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.*

*In North America, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and packaging technology, thermotechnology, household appliances, solar energy and healthcare products. Bosch employs nearly 24,000 associates in more than 70 locations throughout the U.S., Canada and Mexico, with reported sales of \$8.6 billion in fiscal 2008. For more information on the company, visit [www.boschusa.com](http://www.boschusa.com).*

*Bosch Security Systems, Inc., a division of the Bosch Group, develops and markets a broad range of products and systems for security, video surveillance, life safety, personnel and asset tracking applications, as well as for communication and professional audio installations. Worldwide, Bosch Security Systems employs more than 11,000 associates and reported sales of \$2 billion in fiscal 2008.
