

Bosch Introduces Easy-to-Use Video Recorder for Residential and Small Business Applications

February 8, 2010

Fairport, N.Y. – Bosch Security Systems, Inc. announces the Video Recorder 400 Series – an affordable, easy-to-use video recorder that is ready straight from the box. Supporting up to four analog cameras, the recorder is ideal for residences, small retail shops and offices that require a professional CCTV system without high installation costs.

The Video Recorder 400 Series is a complete video management solution with intuitive menus and setup wizards for easy operation with no training required. Simply connect the cameras and power, enter the local time and language, and the unit begins recording automatically.

Customers can operate the Video Recorder 400 Series off-site using a built-in web viewer, which allows for remote viewing, playback, control and configuration. In the event of an alarm, the system automatically sends an instant alert via email – helping customers respond faster to security concerns. In addition, comprehensive search and playback functions, including a Smart Search utility, quickly locate recorded events by looking for changes in selected areas.

The 400 Series uses H.264 compression technology, making it possible for customers to store at least 30 days of video at the highest recording quality. An optional DVD burner also enables video clips to be burned directly to disk without the need for a PC.

Recording rates and quality settings up to 4CIF are configurable per channel to meet customer's specific needs. Dual streaming capability supports multiple video and audio signals for greater flexibility when viewing over a network or the Internet, while simultaneously providing live multi-screen viewing and playback. The 400 Series can also control pan/tilt/zoom equipment, including Bosch AutoDome Modular and AutoDome Easy II

cameras, and supports the Bosch WZ series of affordable day/night cameras for a complete, cost-effective solution.

The Bosch Group is a leading global supplier of technology and services. According to preliminary figures, some 270,000 associates generated sales of roughly 38 billion euros in the areas of automotive and industrial technology, consumer goods, and building technology in fiscal 2009. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than 3.5 billion euros for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.

In North America, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and packaging technology, thermotechnology, household appliances, solar energy and healthcare products. Bosch employs nearly 24,000 associates in more than 70 locations throughout the U.S., Canada and Mexico, with reported sales of \$8.6 billion in fiscal 2008. For more information on the company, visit www.boschusa.com.

Bosch Security Systems, Inc., a division of the Bosch Group, develops and markets a broad range of products and systems for security, video surveillance, life safety, personnel and asset tracking applications, as well as for communication and professional audio installations. Worldwide, Bosch Security Systems employs more than 11,000 associates and reported sales of \$2 billion in fiscal 2008. For more information, visit www.boschsecurity.us or call (800) 289-0096.
